

Santa Maria Public Airport District

2016 SAFETY PROJECT: OBSTRUCTION REMOVAL: (Fall)

ADDENDUM NO. 1

BEGINNING OF ADDENDUM NO. 1

1. Project questions and answers. Questions raised during the Pre-Bid Job Walk. Answers provided by the Airport / Engineer. Information provided is to be incorporated into the contract documents as general and specific, where appropriate.
 - A. Q: Will the Contractor be able to access and fall tree trimmings on the undeveloped ranch area between the Food Bank and Foxenwood Lane?

A: Yes. This is Airport District property. Airport maintenance staff will coordinate with the tenant for control or temporary relocation of animals in this area. The Contractor is responsible for any / all damage to the fence as a result of his operations.
 - B. Q: Will the Contractor have access to the agricultural fields on the north side of Foster Road to work on the trees on the agricultural side of the fence?

A: Yes. The Contractor will be permitted to use agricultural field dirt access roads, however disturbance to any agricultural field including dropping of trimmings onto agricultural fields is not permitted.
 - C. Q: Is a Caltrans encroachment permit required for trimming trees within the State Highway 135 right-of-way?

A: No. All work within the State Highway 135 right-of-way is excluded from this contract.
 - D. Q: The eastern limits of tree trimming depicted on Appendix E do not appear to include the grouping of trees adjacent to the dry pond and previously trimmed trees. Should they be included?

A: Yes. Refer to revised Appendix E, attached.
 - E. Q: Does the Engineer's Estimate represent the airport's budget for this project?

A: No. Based on discussions it is understood bids could exceed the estimate.
2. Appendix E (attached) has been revised to reflect an expanded area of work.
