Project: Roof Repair: 3335 Corsair Circle, Santa Maria Airport
Subject: Notice to Proceed

Ladies and Gentlemen:

All contract documentation, bonds and insurance are in place and accepted. This communication serves as your official **Notice to Proceed** with the work of this project.

In accordance with the project specifications, your contract time for performance is 30 calendar days. As your contract window to perform the work is dependent on the schedule and performance of another contractor, your contract time is currently suspended. It is our intention to provide written advance notice communication a minimum of 14 calendar days (2 weeks) before the point when your contract time will actually start.

In advance of actual mobilization to the site, you are encouraged to proceed with all submittals, material procurement, and coordination of men and equipment in anticipation of this work occurring in the July – September, 2024 time frame.

On behalf of the Santa Maria Public Airport District, we look forward to a good, successful project. Please call or reach out otherwise with any questions or concerns you may have regarding the project or this correspondence.

Sincerely,

TARTAGLIA ENGINEERING

John A. Smith
